# WE MAKE LIFE-SAVING WEAR TO PROTECT THOSE WHO PROTECT US

We design, test and retest every detail of DRIFIRE® garments to ensure optimal safety, comfort and performance for military and industrial professionals.

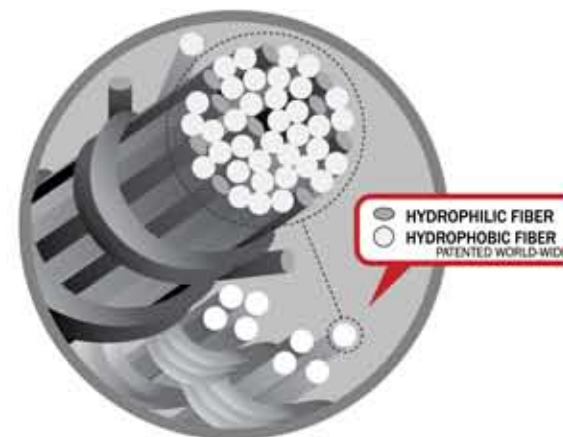

Flame resistance (FR) that is built-in for ultimate protection. All DRIFIRE garments are produced from proprietary DRIFIRE cutting-edge fabrics, featuring inherent flame resistance that will never wash or wear out.

DRIFIRE garments continuously wick moisture and sweat away from the skin and rapidly evaporate it from the fabric to help regulate skin temperature and stay more comfortable.

DRIFIRE garments contain odor control capabilities and can feature antimicrobial properties to protect and lengthen the time between washes.

DRIFIRE® is the only flame resistant wear developer to utilize **drirelease**®, our patented, optimal blend of hydrophobic (water-hating) and hydrophilic (water-loving) fibers for apparel that wicks moisture away from the skin to dry fast, managing sweat and discomfort. It's the same technology used by the world's premier athletic brands. With **drirelease**, DRIFIRE delivers permanent flame resistant apparel that outperforms other flame resistant garments, wash after wash and wear after wear to ensure you stay cool, dry and comfortable to operate at your peak.

# FOR THOSE OUTSIDE THE WIRE, WE GO ABOVE AND BEYOND.

"I've been wearing your product for months and would like to express how astounding it is.

I was involved in a roll-over helicopter crash. I was fortunate enough to walk away from the crash with just a minor scratch. It was partially due to my placement in the aircraft and the use of your product. The pants sustained the majority of the impact from the broken metal around me and did not tear. I commend your company on great quality uniforms."

PRESTON B.  
TSGT, USAF FLIGHT ENGINEER  
AFGHANISTAN

FORTREX™

AIR LIGHT. STEEL STRONG.

## FORTREX™

DRIFIRE®'s revolutionary FORTREX fabric blends the performance properties of DRIFIRE with the protective features of DuPont™ NOMEX®, resulting in garments that are inherently flame resistant and self-extinguishing, while retaining the ability to wick moisture, dry fast, and control odor.

### FORTREX 2-PIECE FLIGHT SUIT

Jacket: PHX2-550FSJ

Pant: PHX2-550FSP

- Made with DRIFIRE's proprietary FORTREX fabric
- Wicking and fast drying
- Cool, breathable fabric minimizes heat build up
- Twice the durability of competitor's fabrics (wet and dry)
- Excellent tensile and tear strengths
- Meets or exceeds Air Force 2-Piece Flight Suit and Army A2CU requirements
- Size: XSS-2XLL

*"While the jet guys use your products, I can assure you that as helo guys we use, abuse, and reuse DRIFIRE gear because it's some of the best on the market. Thank you for your commitment to the military and great products."*

PATRICK "NED" D., LT USN

#### **FORTREX™ 1-PIECE FLIGHT SUIT** PHX1-5501FS

- Navy and USMC "Safe to Fly"
- 27-P design
- Made with DRIFIRE's proprietary FORTREX fabric
- Wicking and fast drying
- Cool, breathable fabric minimizes heat build up
- Twice the durability of competitor's fabrics (wet and dry)
- Excellent tensile and tear strengths
- Size: 32XS-52XXL

## **Durability meets comfort.**

DRIFIRE® built the new FORTREX™ Combat Ensemble from the ground up with extensive input from war fighters in theater. The end result is a high-performance uniform that is incredibly comfortable, yet so durable it reduces the need for replacements.

#### **FORTREX COMBAT SHIRT AND PANT**

Shirt: DF2-550CS

Pant: DF2-550CP

- Integrated, removable impact-resistant D30® elbow and knee pad system
- Reinforced, double stitched seat to prevent blow outs
- Higher pant seat relieves body armor chafing
- Made with DRIFIRE's proprietary FORTREX fabric
- Wicking and fast drying
- Cool, breathable fabric minimizes heat build up
- Twice the durability of competitor's fabrics (wet and dry)
- Excellent tensile and tear strengths
- Shirt: XSS-3XLL; Pant: XSS-2XLL

# BASE LAYERS

## BASE LAYER LEVEL SYSTEM

LEVEL 1: ULTRA-LIGHTWEIGHT | LIGHTWEIGHT

LEVEL 2: MIDWEIGHT | HEAVYWEIGHT

LEVEL 3: FLEECE

*"I've been wearing your short sleeve tee shirts for the last few months here in Afghan on mission and off, around camp and to the gym. The fit is great and unrestrictive. They dry quickly, they don't smell, and there's no visible wear."*

RICHARD W.  
ARMY CORP OF ENGINEERS  
AFGHANISTAN

### LEVEL 1

#### SHORT SLEEVE TEE

Ultra-Lightweight: DF4-505TS

- Soft fabric prevents chafing and maximizes comfort
- Dropped seams for no-rub comfort
- Ultimate performance—moisture wicking, fast-drying and odor control
- Ribbed collar maintains shape
- Dries 4x faster than cotton
- Size: S - 3XL

### LEVEL 1

#### LONG SLEEVE TEE

Ultra-Lightweight: DF4-505LS

- Soft fabric prevents chafing and maximizes comfort
- Dropped seams for no-rub comfort
- Ultimate performance—moisture wicking, fast-drying and odor control
- Ribbed collar maintains shape
- Dries 4x faster than cotton
- Size: S - 3XL

### LEVEL 1

#### SHORT SLEEVE TEE

Lightweight: DF2-446TS

- Soft fabric prevents chafing and maximizes comfort
- Ultimate performance—moisture wicking, fast-drying and odor control
- Ribbed collar maintains shape
- Dries 4x faster than cotton
- Approved for Aviation and Armored Crew Member Use (in Desert Sand)
- Size: S - 3XL

### LEVEL 1

#### LONG SLEEVE TEE

Lightweight: DF2- 446LS

- Soft fabric prevents chafing and maximizes comfort
- Ultimate performance—moisture wicking, fast-drying and odor control
- Ribbed collar maintains shape
- Dries 4x faster than cotton
- Approved for Aviation and Armored Crew Member Use (in Desert Sand)
- Size: S - 3XL

LEVEL 1

**WOMEN'S SPORTS BRA & BOY SHORT**

Sports Bra: DF2-559SB

Boy Short: DF2-559BS

- Strategically placed seams to contour and stay in place
- Racer-back design increases support, and improves posture
- Two-layer cup has micro-mesh lining for soft support
- Boy short features back seaming to keep short in place without riding or bunching, and comfortably aligns to outerwear
- Covered elastic bands reduce binding and maximize comfort
- Ultimate performance—moisture wicking, fast-drying and odor control
- Dries 4x faster than cotton
- Size: S-3XL\*

\*Boy short fit recommendation; consider sizing up

LEVEL 1

LEVEL 1

**BOXER BRIEF**

Ultra-Lightweight: DF4-505BB

Lightweight: DF2-446BB

- Soft fabric prevents chafing and maximizes comfort
- Ultimate performance—moisture wicking, fast-drying and odor control
- Perfect base layer for other DRIFIRE® garments
- Dries 4x faster than cotton
- Size: S - 3XL

**LONG JOHN**

Ultra-Lightweight: DF4-505LP

Lightweight: DF2-446LP

- Soft fabric prevents chafing and maximizes comfort
- Ultimate performance—moisture wicking, fast-drying and odor control
- Perfect base layer for other DRIFIRE® garments
- Dries 4x faster than cotton
- Size: S - 3XL

LEVEL 2

**LONG SLEEVE TEE**

Midweight: DF2-240LS

- Perfect for wearing alone or layered for increased warmth and FR protection
- Soft fabric prevents chafing
- Dropped shoulder, flat-lock seams for no-rub comfort
- Dries 4x faster than cotton
- Size: S - 3XL

LEVEL 2

**LONG JOHN**

Midweight: DF2-240LP

- Soft fabric prevents chafing
- Perfect for layering in colder climates
- Dries 4x faster than cotton
- Size: S - 3XL

LEVEL 2

**LONG SLEEVE TEE**

Heavyweight: DF2-245LS

- Perfect for wearing alone or layered for increased warmth and FR protection
- Soft fabric prevents chafing
- Dropped shoulder, flat-lock seams for no-rub comfort
- Dries 4x faster than cotton
- Size: S - 3XL

LEVEL 2

**LONG JOHN**

Heavyweight: DF2-245LP

- Soft fabric prevents chafing
- Perfect for layering in colder climates
- Dries 4x faster than cotton
- Size: S - 3XL

LEVEL 3

**MOCK ZIP FLEECE**

Fleece: DF2-277MZ

- Soft fleece lining provides extra warmth and comfort in cooler climates
- Wear alone or layered with other DRIFIRE® garments for additional protection and warmth
- Ultimate performance—moisture wicking, fast-drying and odor control
- Size: S - 3XL

*"I was doing a land navigation out on Fort Benning...4-5 hours looking for points in and out of the bush. I was wearing your base layer shirt that day. After I was done, I took my gear off and no \*\*\*\*, I was actually dry! The only reason my outer layer was all wet from sweat was because I didn't have one that was made from DRIFIRE. Your shirt worked just like you said it would."*

SGT MARTINEZ  
US ARMY SQUAD LEADER

## Neck and Head Gear

DRIFIRE® neck and head protection delivers inherent flame resistance, superior wicking, fast drying, and odor control.

**NECK GAITER**

Hot Weather: DF2-560HNG  
Cold Weather: DF2-560CNG

- Versatile, extra-long design allows range of coverage options
- Soft fabric prevents chafing
- Ultimate performance—moisture wicking, fast-drying and odor control
- Dries 4x faster than cotton
- Size: Unisize

**BALACLAVA**

Hot Weather: DF2-560HB  
Cold Weather: DF2-560CB

- Hinged design stays in place, moves with you, and allows you to select your level of coverage
- Designed with flat-lock seams to fit comfortably under a helmet
- Ultimate performance—moisture wicking, fast-drying and odor control
- Dries 4x faster than cotton
- Size: Unisize

**SKULL CAP**  
DF2-240SK

- Ultimate performance—moisture wicking, fast-drying and odor control
- Additional protection to be worn under a helmet
- Streamlined design to avoid bunching
- Size: Unisize

ALL-DAY COMFORT + INHERENT PROTECTION

## DRIFIRE® Flight Deck Gear

By combining attention to detail with high-performing DRIFIRE fabrics, we have created an innovative solution for shipboard garments with breakthrough comfort, performance and protection.

**FLIGHT DECK JERSEY**  
DF2-340FDS

- Inherent FR protection
- Mock turtleneck design increases coverage and protection
- Excellent colorfastness
- Resists oil stains
- Dries 4x faster than cotton
- Approved for standard shipboard laundry
- Size: S-3XL

**FLIGHT DECK PANT**  
Officer: DF2-850FDPO  
Enlisted: DF2-850FDPE

- Inherent FR protection
- Soft fabric prevents chafing
- Elastic waistband ensures comfort
- Officer and enlisted version
- Size: XSS-2XLL

## DRIFIRE® Navy and USMC Garments

Designed to work as a system for optimal performance, DRIFIRE's high-performance Navy and USMC garments were developed in the field to be more functional for the nation's most formidable.

### NAVY AND USMC 1-PIECE FLIGHT SUIT PHX1-5501FS

- Multi-environment colors hide dirt and minimize overheating
- Adjustable side tabs for customized torso fit
- Navy and USMC "Safe to Fly"
- Available in Khaki P1 and Sage
- Size: 32S-52XXL

*"The One-Piece Flight Suit is awesome. It is, by far, the most comfortable out-of-the-box flight suit I have ever worn. It rivals my preferred 7-10 year old suits in comfort and maneuverability. I think you've nailed it on the mix between light weight and durability."*

TODD P.  
LCDR US NAVY

### NAVY AND USMC 2-PIECE FLIGHT SUIT

Jacket: PHX2-7129JA

Pant: PHX2-7129PA

- Increased durability and performance
- 2-piece design increases air flow
- Unique design improves fit and range of motion while minimizing snag hazards
- Adjustable side tabs for customized fit
- Navy and USMC "Safe to Fly"
- Available in Khaki P1 and Sage
- Size: XSS-2XLL

### NAVY AND USMC COMBAT SHIRT DF2-7129CS

- Multi-environment colors hide dirt and minimize overheating
- Zippered neck closure
- Works as a system with Navy and USMC 2-Piece Flight Suit, interchangeable with jacket
- Available in Khaki P1 and Sage
- Size: XSS-3XLL

## Protection meets compression

The newest innovation from DRIFIRE® provides a safer solution for those who wear compression shirts. The 4-way stretch fabric facilitates range of motion and dries four times faster than cotton.

### DRIFIRE COMPRESSION SHIRT DF2-762TS

- Inherent FR protection
- Soft compression
- Dropped seams for no-rub comfort
- Designed to work under body armor
- Odor control
- Moisture wicking and fast drying
- Size: S-2XL

## When flame resistance isn't required, but comfort is.

Once a performance fabric technology used by the world's premium athletic brands, **drirelease®** is now available as its own line of performance garments.

### drirelease PERFORMANCE SHORT DR1-734PTSH

- Moisture wicking
- **drirelease** liner dries 4x faster than cotton
- Easy care, holds shape
- Freshguard® controls odor
- Soft, natural feel for superior comfort
- Interior pocket
- Durable nylon shell
- Non-FR garment
- Size: S-2XL

YOU DON'T HAVE TO BE IN THE MILITARY TO BE IN THE LINE OF FIRE.

“At Quanta,  
the safety of  
our employees  
is the most  
important priority.

The DRIFIRE shirts provide the  
FR protection required for our  
crews. Meanwhile, the moisture  
wicking and fast-drying features  
of the DRIFIRE Hi-Viz utility shirt  
keep our employees comfortable.”

WILSON YANCEY  
VICE PRESIDENT OF HEALTH, SAFETY  
AND ENVIRONMENTAL  
QUANTA SERVICES

DualCool™

HEAT CAN BE BEAT.

## Comfort meets safety.

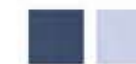

Providing dual-hazard protection against both arc and flash fire, the DRIFIRE® DualCool™ Coverall features built-in moisture management capabilities to reduce the possibilities of heat stress, is twice as durable as competitor's fabrics, and is UL 2112 Certified.

### DRIFIRE COVERALL

Gray: DF2-420CA

Navy Blue: DF2-421CA

- Constructed with DualCool dual-hazard fabric
- Excellent, durable wicking performance
- Fast-drying and odor control
- Provides thermal protection from flash fire
- Gets even more comfortable with wear
- ASTM F1506; NFPA 70E compliant; 8.2 ATPV; HRC 2
- UL 2112 Certified
- Size: S-3XL

*"I spoke with all of my guys that tried your coveralls. They all wanted several more pairs and said that they were considerably cooler than any other coverall we had purchased in the past."*

CHRIS ELLIOTT, US SAFETY MANAGER, STINGER WELLHEAD PROTECTION, INC.

## BASE LAYERS

PROTECTION. PLUS

## Battle tested. Field approved.

At DRIFIRE®, our development and design teams apply the lessons learned from deployment to the FR apparel we design for riggers, roughnecks, firefighters, and utility workers.
